

HISTORY OF BIOTECHNOLOGY TIMELINE ASSIGNMENT

You will be assigned several items to research. Your job is to research the scientist or terms listed and provide details about the historical significance related to biotechnology. With your research, the class will be expected to make a timeline with all scientists, terms and details on butcher paper. **Wikipedia is not an acceptable source for information.**

Neatness and legibility will be considered in your grade for this assignment.

Information Required:

Name of Scientist	Most Notable Accomplishments
Birth and Location	Schooling/Special Training
Death and Location	Description of Scientist (personal info, etc.)
Interesting Fact	Drawing/Picture of Scientist or Work

Resource for the following scientists: <http://www.accessexcellence.org/RC/AB/BC/>

Paul Berg	J. Michael Bishop	Herbert Boyer	Rosalind Franklin
Walter Gilbert	William Harvey	Arthur Kornberg	Barbara McClintock
Gregor Mendel	Cesar Milstein	Kary B. Mullis	Louis Pasteur
Linus Pauling	Robert Swanson	James Watson	Harold Elliott Varmus

Additional Scientists:

Edward Jenner	Francis H.C. Crick	Alexander Fleming	Joseph Lister
Robert Koch	Zacharias Janssen	Anton Van Leeuwenhoek	Norman E. Borlaug
Mary Clare King	Ian Wilmut
